One second-foot equals 40 miners' inches.

3. The water to be used for Irrigation, domestic and warming hothouse
Irrigation, power, mining, manufacturing, domestic, or other use.

4. The water is to be diverted from its source at the following
point: Near the center of S.E. 1/4 N.W. 1/4 Sec. 10, Tp. 22 S. R. 61 E.
Describe as being within a 40-acre subdivision of public survey, or by course and distance to a section corner. If on unsurveyed land it should be so stated.
M.D.B. & M.

IF THE WATER IS TO BE USED FOR IRRIGATION, SUPPLY THE FOLLOWING INFORMATION:

(a) Number of acres to be irrigated is 160

(b) Description of land to be irrigated E. 1/2 N.W. 1/4 and W. 1/2
Describe by legal subdivision, or if on unsurveyed land it
N.E. 1/4, Section 10 Tp. 22 S. R. 61 E. M.D.B. & M.
should be so stated and a description provided in accordance with special instruction from the State Engineer when application is returned for correction.

(c) Irrigation will begin about January 1st and end about
Month.
December 31st, of each year.
Month.

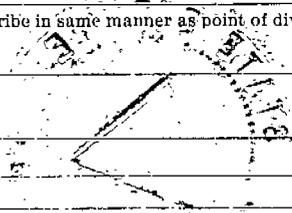

IF WATER IS TO BE USED FOR POWER, MINING, TRANSPORTATION, OR OTHER USE, SUPPLY THE FOLLOWING INFORMATION:

(d) Power to be developed is _____ horsepower.

(e) Works to be located _____
Give 40-acre subdivision on which works will be located, or locate by course and distance to a section corner.

(f) Point of return of water to stream _____
Describe in same manner as point of diversion.

(g) Remarks _____

DESCRIPTION OF PROPOSED WORKS

Water to be diverted by way of an artesian well, thence through ditches to the places of use; This well was driven during the years 1909-1910 and is eight inches in diameter and about 325 deep. The flow of the well measures approximately 2.1 second feet. The well is known as the Evey well

- 5. Estimated cost of works \$1000.00
6. Estimated time required to construct works Works are completed
7. Remarks See rider appended above.

FORFEITED

FILED NO. DATE MAY 14 1902

APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

The State Engineer assumes, by the filing of this application, that the source of supply is one which is subject to appropriation under the laws of the State whereby this office obtains jurisdiction. The State reserves the right to regulate the use of the water herein granted at any and all times. It is distinctly understood that the applicant agrees to the terms herein contained.

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and not to exceed 1.6 cubic feet per second. (One and six-tenths)

Actual construction work shall begin on or before July 24, 1917

Proof of commencement of work shall be filed before August 24, 1917

Work must be prosecuted with reasonable diligence and be completed on or before August 24, 1917

Proof of Completion of Work shall be filed before September 24, 1917

Application of water to beneficial use shall be made on or before

July 24, 1918 Proof of the application of water to beneficial

use must be filed with State Engineer on or before August 24, 1918

Proof of labor filed AUG 23 1917 WITNESS MY HAND AND SEAL this 25th day

Proof of completion of work filed AUG 13 1917 of June, 1917

Map filed DEC 1917

Proof of beneficial use filed DEC 26 1918

Certificate No. 2416 Issued Nov 28 1918

Recorded Dec 2 1918 Bk. L. 211 p. 127

Rider.

7. Remarks....This application is made without waiver of any right or rights which the applicant may now have in and to the use of the water in said Paradise Valley Artesian Belt, Clark County, Nevada, and flowing through the said Evey well, and no statement made by him in answer to any of the questions contained in this application shall be construed as an admission on said applicants part that he waives any right which he may now have to said water; It is the intention of this applicant by this application to acquire rights to the use of water existing in a subterranean channel or artesian belt, and not merely to acquire rights to the use of water flowing from said well, and this application shall be so construed.

This well was driven by John F. Evey in 1909-1910 upon land belonging to said Evey, and ever since water was struck it has been applied to a beneficial use, to wit: since 1910.

During the summer months the flow will irrigate the better part of seventy two (72) Acres, which is the amount of land claimant now has under cultivation. And in the irrigation of this amount of land the whole flow is needed continuously from February 1st, to November 30th, or thereabouts. From October 1st to March 1st the whole flow is needed for the irrigation and heating of hot houses. The water being warm, and allowed to run slowly through covered sheds keeps the temperature around 98 degrees all through the winter months.
